SUMMARY

Aspiring Software Developer with hands-on experience in building full-stack web applications through an industry internship, freelance projects, and personal projects. Skilled in React.js, Next.js, Node.js, and TypeScript, with experience developing real-time applications, REST APIs, and responsive user interfaces. Strong interest in problem-solving and software engineering, backed by practical development experience and continuous learning in Data Structures and Algorithms.

SKILLS

Languages:	C++, JavaScript, TypeScript, SQL, HTML, CSS
Frameworks:	React.js, Next.js, Node.js, Express.js, Tailwind CSS, Socket.IO
Tools:	Git, GitHub, VS Code, Figma
Platforms:	Windows, Web, Vercel
Core Concepts:	Operating Systems, Computer Networks, DBMS, OOP

EXPERIENCE

Frontend Developer Intern

Jul 2024 - Sep 2024

Yogui Media

New Delhi

- Integrated 5+ REST API endpoints to implement dynamic data rendering and real-time UI updates.
- Built 10+ reusable React.js components, reducing duplicate code by 30% and improving UI scalability.
- Improved frontend performance by 25% through lazy loading and asset optimization, resulting in 15% higher user engagement.
- Collaborated with a 6-member cross-functional team, managing code via GitHub version control.

Freelance Web Developer

Mar 2024 - Jan 2026

Independent Contractor

New Delhi

- Collaborated in a 3-member development team to design and deliver 10+ custom client websites through online freelance communities, increasing client satisfaction by 20%.
- Developed and deployed multiple client websites, ensuring 100% responsive and user-focused design.
- Gathered requirements from 10+ clients, improved responsive UI layouts, and delivered web solutions.

PROJECTS

BlinkChat

Live

Next.js, React JS, TypeScript, Tailwind CSS, Upstash Realtime.

- Designed a privacy-first 1:1 chat system with Redis TTL-based 10-min auto-expiry, ensuring 100% automatic data destruction and 85% lower storage overhead.
- Achieved secure token-based auth (HTTP-only cookies) and optimized backend, improving throughput by 40%.
- Engineered real-time messaging pipeline using Upstash Realtime achieving < 120 ms median latency with presence, typing, reactions and read receipts.

CodeCollaby – Real-Time Collaborative Coding Platform

Live

React.js, Tailwind CSS, Node.js, Express.js, Socket.IO.

- Built a real-time collaborative code editor supporting multiple users with low-latency synchronization using WebSockets (Socket.IO).
- Implemented room-based collaboration system handling concurrent users with live code and cursor updates.
- Integrated JDoodle API to execute code in 4+ programming languages including C++, Java, Python, and JavaScript.

EDUCATION

Bachelor of Technology in Electronics and Communication Engineering

Expected Aug 2026

Guru Gobind Singh Indraprastha University

ACHIEVEMENTS

Solved 300+ Data Structures and Algorithms Problems on LeetCode and GeeksforGeeks.

Completed 10+ freelance web development projects, managing the full lifecycle from client requirements to deployment.

ACTIVITIES

Core Team Member: OptClick The Digital Art Society of BPIT

Cultural Committee Member: MALHAAR- Annual Cultural Fest of BPIT
